# API Endpoints

This page is intended as a reference for available USAspending API endpoints. The Documentation Index (<https://api.usaspending.gov/docs/>) provides links to introductory resources and tutorials to help you get started.

Endpoints do not currently require any authorization.

## Status Codes

In general, status codes returned are as follows:

- 200 if the request is successful
- 400 if the request is malformed

- 500 for server-side errors

# Endpoints and Methods

The currently available endpoints are listed in the following table.

## Endpoint Index

Endpoint	Methods	Description
/api/v2/agency/<TOPTIER_AGENCY_CODE>/ (/api/v2/agency/012/)	GET	Returns agency overview information for USAspending.gov's Agency Details page for agencies that have ever awarded
/api/v2/agency/<TOPTIER_AGENCY_CODE>/awards/ (/api/v2/agency/012/awards/)	GET	Returns agency summary information, specifically the number of transactions and award obligations for the sub agency section of USAspending.gov's Agency Details page
/api/v2/agency/<TOPTIER_AGENCY_CODE>/awards/new/count/ (/api/v2/agency/012/awards/new/count/)	GET	Returns a count of New Awards for the agency in a single fiscal year
/api/v2/agency/awards/count/ (/api/v2/agency/awards/count/)	GET	Returns a count of Awards types for agencies in a single fiscal year
/api/v2/agency/<TOPTIER_AGENCY_CODE>/budget_function/ (/api/v2/agency/012/budget_function/)	GET	Returns a list of Budget Functions and Budget Subfunctions for the agency in a single fiscal year
/api/v2/agency/<TOPTIER_AGENCY_CODE>/budget_function/count/ (/api/v2/agency/012/budget_function/count/)	GET	Returns the count of Budget Functions for the agency in a single fiscal year

Endpoint	Methods	Description
/api/v2/agency/<TOPTIER_AGENCY_CODE>/budgetary_resources/ (/api/v2/agency/012/budgetary_resources/)	GET	Returns budgetary resources and obligations for the agency and fiscal year requested
/api/v2/agency/<TOPTIER_AGENCY_CODE>/federal_account/ (/api/v2/agency/012/federal_account/)	GET	Returns a list of Federal Accounts and Treasury Accounts for the agency in a single fiscal year
/api/v2/agency/<TOPTIER_AGENCY_CODE>/federal_account/count/ (/api/v2/agency/012/federal_account/count/)	GET	Returns the count of Federal Accounts and Treasury Accounts for the agency in a single fiscal year
/api/v2/agency/<TOPTIER_AGENCY_CODE>/object_class/ (/api/v2/agency/012/object_class/)	GET	Returns a list of Object Classes for the agency in a single fiscal year
/api/v2/agency/<TOPTIER_AGENCY_CODE>/object_class/count/ (/api/v2/agency/012/object_class/count/)	GET	Returns the count of Object Classes for the agency in a single fiscal year
/api/v2/agency/<TOPTIER_AGENCY_CODE>/obligations_by_award_category/ (/api/v2/agency/012/obligations_by_award_category/)	GET	Returns a breakdown of obligations by award category within a single fiscal year
/api/v2/agency/<TOPTIER_AGENCY_CODE>/program_activity/ (/api/v2/agency/012/program_activity/)	GET	Returns a list of Program Activity categories for the agency in a single fiscal year
/api/v2/agency/<TOPTIER_AGENCY_CODE>/program_activity/count/ (/api/v2/agency/012/program_activity/count/)	GET	Returns the count of Program Activity categories for the agency in a single fiscal year
/api/v2/agency/<TOPTIER_AGENCY_CODE>/sub_agency/ (/api/v2/agency/012/sub_agency/)	GET	Returns a list of sub-agencies and offices with obligated amounts, transaction counts and new award counts for the agency in a single fiscal year

Endpoint	Methods	Description
/api/v2/agency/<TOPTIER_AGENCY_CODE>/sub_agency/count/ (/api/v2/agency/012/sub_agency/count/)	GET	Returns the number of sub-agencies and offices for the agency in a single fiscal year
/api/v2/agency/<TOPTIER_AGENCY_CODE>/sub_components/<BUREAU_SLUG>/ (/api/v2/agency/012/sub_components/farm-service-agency/)	GET	Returns a list of federal_accounts by bureau for the agency in a single fiscal year
/api/v2/agency/<TOPTIER_AGENCY_CODE>/sub_components/ (/api/v2/agency/012/sub_components/)	GET	Returns a list of bureaus for the agency in a single fiscal year
/api/v2/agency/treasury_account/<TREASURY_ACCOUNT_SYMBOL>/object_class/ (/api/v2/agency/treasury_account/001-X-0000-000/object_classes/)	GET	Returns a list of Object Classes for the specified Treasury Account Symbol (tas).
/api/v2/agency/treasury_account/<TREASURY_ACCOUNT_SYMBOL>/program_activity/ (/api/v2/agency/treasury_account/001-X-0000-000/program_activity/)	GET	Returns a list of Program Activities for the specified Treasury Account Symbol (tas).
/api/v2/autocomplete/accounts/a/ (/api/v2/autocomplete/accounts/a/)	POST	Returns Treasury Account Symbol Availability Type Code (A) filtered by other components provided in the request filter
/api/v2/autocomplete/accounts/aid/ (/api/v2/autocomplete/accounts/aid/)	POST	Returns Treasury Account Symbol/Federal Account Agency Identifier (AID) filtered by other components provided in the request filter
/api/v2/autocomplete/accounts/ata/ (/api/v2/autocomplete/accounts/ata/)	POST	Returns Treasury Account Symbol Allocation Transfer Agency Identifier (ATA) filtered by other components provided in the request filter

Endpoint	Methods	Description
/api/v2/autocomplete/accounts/bpoa/ (/api/v2/autocomplete/accounts/bpoa/)	POST	Returns Treasury Account Symbol Beginning Period of Availability (BPOA) filtered by other components provided in the request filter
/api/v2/autocomplete/accounts/epoa/ (/api/v2/autocomplete/accounts/epoa/)	POST	Returns Treasury Account Symbol Ending Period of Availability (EPOA) filtered by other components provided in the request filter
/api/v2/autocomplete/accounts/main/ (/api/v2/autocomplete/accounts/main/)	POST	Returns Treasury Account Symbol/Federal Account Main Account Code (MAIN) filtered by other components provided in the request filter
/api/v2/autocomplete/accounts/sub/ (/api/v2/autocomplete/accounts/sub/)	POST	Returns Treasury Account Symbol Sub-Account Code (SUB) filtered by other components provided in the request filter
/api/v2/autocomplete/awarding_agency/ (/api/v2/autocomplete/awarding_agency/)	POST	Returns awarding agencies matching the specified search text
/api/v2/autocomplete/awarding_agency_office/ (/api/v2/autocomplete/awarding_agency_office/)	POST	Returns awarding agencies and office matching the specified search text
/api/v2/autocomplete/funding_agency_office/ (/api/v2/autocomplete/funding_agency_office/)	POST	Returns funding agencies and office matching the specified search text
/api/v2/autocomplete/cfda/ (/api/v2/autocomplete/cfda/)	POST	Returns CFDA programs matching the specified search text
/api/v2/autocomplete/city/ (/api/v2/autocomplete/city/)	POST	Returns city names matching the search text, sorted by relevance
/api/v2/autocomplete/recipient/ (/api/v2/autocomplete/recipient/)	POST	Returns recipient names and uei based on search text

Endpoint	Methods	Description
/api/v2/autocomplete/funding_agency/ (/api/v2/autocomplete/funding_agency/)	POST	Returns funding agencies matching the specified search text
/api/v2/autocomplete/glossary/ (/api/v2/autocomplete/glossary/)	POST	Returns glossary terms matching provided search text
/api/v2/autocomplete/naics/ (/api/v2/autocomplete/naics/)	POST	Returns NAICS objects matching the specified search text
/api/v2/autocomplete/psc/ (/api/v2/autocomplete/psc/)	POST	Returns product or service (PSC) codes and their descriptions based on a search string. This may be the 4-character PSC code or a description string.
/api/v2/autocomplete/program_activity/ (/api/v2/autocomplete/program_activity/)	POST	Returns program activities and their names based on a search string. This may be the 4-character program activity code or a name string.
/api/v2/autocomplete/location (/api/v2/autocomplete/location)	POST	Returns locations based on search text
/api/v2/award_spending/recipient/ (/api/v2/award_spending/recipient/?fiscal_year=2016&awarding_agency_id=183)	GET	Returns all award spending by recipient for a given fiscal year and agency id
/api/v2/awards/<AWARD_ID>/ (/api/v2/awards/CONT_IDV_TMHQ10C0040_2044/)	GET	Returns details about specific award
/api/v2/awards/accounts/ (/api/v2/awards/accounts/)	POST	Returns a list of federal accounts for the indicated award
/api/v2/awards/count/federal_account/<AWARD_ID>/ (/api/v2/awards/count/federal_account/CONT_IDV_TMHQ10C0040_2044/)	GET	Returns the number of federal accounts associated with the award

Endpoint	Methods	Description
/api/v2/awards/count/subaward/<AWARD_ID>/ (/api/v2/awards/count/subaward/66945037/)	GET	Returns the number of subawards associated with the award
/api/v2/awards/count/subaward/<AWARD_ID>/ (/api/v2/awards/count/subaward/CONT_IDV_TMHQ10C0040_2044/)	GET	Returns the number of subawards associated with the award
/api/v2/awards/count/transaction/<AWARD_ID>/ (/api/v2/awards/count/transaction/CONT_IDV_TMHQ10C0040_2044/)	GET	Returns the number of transactions associated with the award
/api/v2/awards/funding (/api/v2/awards/funding)	POST	Returns federal account, awarding agencies, funding agencies, and transaction obligated amount information for a requested award
/api/v2/awards/funding_rollup (/api/v2/awards/funding_rollup)	POST	Returns aggregated count of awarding agencies, federal accounts, and total transaction obligated amount for an award
/api/v2/awards/last_updated/ (/api/v2/awards/last_updated/)	GET	Returns date of last update
/api/v2/budget_functions/list_budget_functions/ (/api/v2/budget_functions/list_budget_functions/)	GET	Returns all Budget Functions associated with a TAS, ordered by Budget Function code
/api/v2/budget_functions/list_budget_subfunctions/ (/api/v2/budget_functions/list_budget_subfunctions/)	POST	Returns all Budget Functions associated with a TAS, ordered by Budget Function code
/api/v2/bulk_download/awards/ (/api/v2/bulk_download/awards/)	POST	Generates zip file for download of award data in CSV format
/api/v2/bulk_download/list_agencies/ (/api/v2/bulk_download/list_agencies/)	POST	Lists all the agencies and the subagencies or federal accounts associated under specific agencies

Endpoint	Methods	Description
/api/v2/bulk_download/list_monthly_files/ (/api/v2/bulk_download/list_monthly_files/)	POST	Lists the monthly files associated with the requested params
/api/v2/bulk_download/status/ (/api/v2/bulk_download/status/)	GET	Returns the current status of a download job that that has been requested with the v2/ bulk_download/awards/ or v2/ bulk_download/transaction/ endpoint that same day.
/api/v2/disaster/agency/count/ (/api/v2/disaster/agency/count/)	POST	Returns the count of Agencies which received disaster/emergency funding
/api/v2/disaster/agency/loans/ (/api/v2/disaster/agency/loans/)	POST	Returns insights on the Agencies awarding loans from disaster/emergency funding
/api/v2/disaster/agency/spending/ (/api/v2/disaster/agency/spending/)	POST	Returns insights on the Agencies which received disaster/emergency funding
/api/v2/disaster/award/amount/ (/api/v2/disaster/award/amount/)	POST	Returns account data obligation and outlay spending aggregations of all (File D) Awards which received disaster/emergency funding
/api/v2/disaster/award/count/ (/api/v2/disaster/award/count/)	POST	Returns the count of account data obligation and outlay spending aggregations of all (File D) Awards which received disaster/emergency funding
/api/v2/disaster/cfda/count/ (/api/v2/disaster/cfda/count/)	POST	Dimension Count of Disaster/Emergency funding data
/api/v2/disaster/cfda/loans/ (/api/v2/disaster/cfda/loans/)	POST	Records of loan Disaster/Emergency funding data by dimension
/api/v2/disaster/cfda/spending/ (/api/v2/disaster/cfda/spending/)	POST	Records of spending Disaster/Emergency funding data by dimension
/api/v2/disaster/def_code/count/ (/api/v2/disaster/def_code/count/)	POST	Dimension Count of Disaster/Emergency funding data

Endpoint	Methods	Description
/api/v2/disaster/federal_account/count/ (/api/v2/disaster/federal_account/count/)	POST	Dimension Count of Disaster/Emergency funding data
/api/v2/disaster/federal_account/loans/ (/api/v2/disaster/federal_account/loans/)	POST	Records of loan Disaster/Emergency funding data by dimension
/api/v2/disaster/federal_account/spending/ (/api/v2/disaster/federal_account/spending/)	POST	Records of spending Disaster/Emergency funding data by dimension
/api/v2/disaster/object_class/count/ (/api/v2/disaster/object_class/count/)	POST	Dimension Count of Disaster/Emergency funding data
/api/v2/disaster/object_class/loans/ (/api/v2/disaster/object_class/loans/)	POST	Records of loan Disaster/Emergency funding data by dimension
/api/v2/disaster/object_class/spending/ (/api/v2/disaster/object_class/spending/)	POST	Records of spending Disaster/Emergency funding data by dimension
/api/v2/disaster/overview/ (/api/v2/disaster/overview/)	GET	Overview of Disaster/Emergency funding and spending
/api/v2/disaster/recipient/count/ (/api/v2/disaster/recipient/count/)	POST	Dimension Count of Disaster/Emergency funding data
/api/v2/disaster/recipient/loans/ (/api/v2/disaster/recipient/loans/)	POST	Records of loan Disaster/Emergency funding data by dimension
/api/v2/disaster/recipient/spending/ (/api/v2/disaster/recipient/spending/)	POST	Records of spending Disaster/Emergency funding data by dimension

Endpoint	Methods	Description
/api/v2/disaster/spending_by_geography/ (/api/v2/disaster/spending_by_geography/)	POST	Geographic award spending of Disaster/Emergency funding
/api/v2/download/accounts/ (/api/v2/download/accounts/)	POST	Generates zip file for download of account data in CSV format
/api/v2/download/assistance/ (/api/v2/download/assistance/)	POST	Returns a zipped file containing Assistance data
/api/v2/download/awards/ (/api/v2/download/awards/)	POST	Generates zip file for download of award data in CSV format
/api/v2/download/contract/ (/api/v2/download/contract/)	POST	Returns a zipped file containing Contract data
/api/v2/download/count/ (/api/v2/download/count/)	POST	Returns the number of transactions that would be included in a download request for the given filter set
/api/v2/download/disaster/ (/api/v2/download/disaster/)	POST	Returns a zipped file containing Account and Award data for the Disaster Funding
/api/v2/download/disaster/recipients/ (/api/v2/download/disaster/recipients/)	POST	Returns a zipped file containing Disaster Recipient Funding data
/api/v2/download/idv/ (/api/v2/download/idv/)	POST	Returns a zipped file containing IDV data
/api/v2/download/status/ (/api/v2/download/status/)	GET	gets the current status of a download job that that has been requested with the v2/download/awards/ or v2/download/transaction/ endpoint that same day
/api/v2/download/transactions/ (/api/v2/download/transactions/)	POST	Generates zip file for download of award data in CSV format

Endpoint	Methods	Description
/api/v2/federal_accounts/<ACCOUNT_CODE>/ (/api/v2/federal_accounts/020-0550/)	GET	Returns a federal account based on its federal account code
/api/v2/federal_accounts/<ACCOUNT_CODE>/available_object_classes/ (/api/v2/federal_accounts/4324/available_object_classes/)	GET	Returns financial spending data by object class based on account's internal ID
/api/v2/federal_accounts/<ACCOUNT_CODE>/fiscal_year_snapshot/<YEAR>/ (/api/v2/federal_accounts/4324/fiscal_year_snapshot/2017/)	GET	Returns budget information for a federal account for the year provided based on account's internal ID
/api/v2/federal_accounts/<ACCOUNT_CODE>/fiscal_year_snapshot/ (/api/v2/federal_accounts/4324/fiscal_year_snapshot/)	GET	Returns budget information for a federal account for the most recent year based on account's internal ID
/api/v2/federal_accounts/ (/api/v2/federal_accounts/)	POST	Returns financial spending data by object class
/api/v2/federal_obligations/ (/api/v2/federal_obligations/?fiscal_year=2019&funding_agency_id=315&limit=10&page=1)	GET	Returns a paginated list of obligations for the provided agency for the provided year
/api/v2/financial_balances/agencies/ (/api/v2/financial_balances/agencies/?fiscal_year=2017&funding_agency_id=4324)	GET	Returns financial balances by agency and the latest quarter for the given fiscal year
/api/v2/financial_spending/major_object_class/ (/api/v2/financial_spending/major_object_class/?fiscal_year=2017&funding_agency_id=4324)	GET	Returns financial spending data by object class for the latest quarter based on the given fiscal year

Endpoint	Methods	Description
/api/v2/financial_spending/object_class/ (/api/v2/financial_spending/object_class/?fiscal_year=2017&funding_agency_id=4324&major_object_class_code=20)	GET	Returns financial spending data by object class for the latest quarter based on the given fiscal year
/api/v2/idvs/accounts/ (/api/v2/idvs/accounts/)	POST	Returns a list of federal accounts for the indicated IDV
/api/v2/idvs/activity/ (/api/v2/idvs/activity/)	POST	Returns information about child awards and grandchild awards for a given IDV (Indefinite Delivery Vehicle).
/api/v2/idvs/amounts/<AWARD_ID>/ (/api/v2/idvs/amounts/CONT_IDV_NNK14MA74C_8000/)	GET	Returns the direct children of an IDV
/api/v2/idvs/awards/ (/api/v2/idvs/awards/)	POST	Returns IDVs or contracts related to the requested Indefinite Delivery Vehicle award (IDV)
/api/v2/idvs/count/federal_account/<AWARD_ID>/ (/api/v2/idvs/count/federal_account/CONT_IDV_NNK14MA74C_8000/)	GET	Returns the number of federal accounts associated with children and grandchild awards of an IDV.
/api/v2/idvs/funding/ (/api/v2/idvs/funding/)	POST	Returns File C funding records associated with an IDV
/api/v2/idvs/funding_rollup/ (/api/v2/idvs/funding_rollup/)	POST	Returns aggregated count of awarding agencies, federal accounts, and total transaction obligated amount for all contracts under an IDV
/api/v2/recipient/ (/api/v2/recipient/)	POST	Returns a list of recipients in USAspending DB

Endpoint	Methods	Description
/api/v2/recipient/children/<DUNS_OR_UEI>/ (/api/v2/recipient/children/006928857/)	GET	Returns recipient details based on DUNS or UEI number
/api/v2/recipient/count/ (/api/v2/recipient/count/)	POST	Returns the count of recipients for the given filters
/api/v2/recipient/duns/<HASH_VALUE>/ (/api/v2/recipient/duns/99a44eeb-23ef-e7c4-1f84-9a695b6f5d2e-R/)	GET	Returns a high-level overview of a specific recipient, given its id
/api/v2/recipient/duns/ (/api/v2/recipient/duns/)	POST	Returns a list of recipients in USAspending DB
/api/v2/recipient/<HASH_VALUE>/ (/api/v2/recipient/99a44eeb-23ef-e7c4-1f84-9a695b6f5d2e-R/)	GET	Returns an individual recipient in USAspending DB
/api/v2/recipient/state/<FIPS>/ (/api/v2/recipient/state/51/)	GET	Returns basic information about the specified state
/api/v2/recipient/state/ (/api/v2/recipient/state/)	GET	Returns basic information about the specified state
/api/v2/recipient/state/awards/<FIPS>/ (/api/v2/recipient/state/awards/51/)	GET	Returns award breakdown based on FIPS
/api/v2/reporting/agencies/<TOPTIER_CODE>/differences/ (/api/v2/reporting/agencies/097/differences/)	GET	Returns About the Data information about differences in account balance and spending obligations for a specific agency/year/period
/api/v2/reporting/agencies/<TOPTIER_CODE>/discrepancies/ (/api/v2/reporting/agencies/097/discrepancies/)	GET	Returns TAS discrepancies of the specified agency's submission data for a specific FY/FP

Endpoint	Methods	Description
/api/v2/references/agency/<AGENCY_ID>/ (/api/v2/references/agency/479/)	GET	Returns basic information about a federal agency
/api/v2/references/award_types/ (/api/v2/references/award_types/)	GET	Returns a map of award types by award grouping.
/api/v2/references/cfda/totals// (/api/v2/references/cfda/totals/10.555/)	GET	Provides total values for provided CFDA
/api/v2/references/cfda/totals/ (/api/v2/references/cfda/totals/)	GET	Provides total values for all CFDA's
/api/v2/references/data_dictionary/ (/api/v2/references/data_dictionary/)	GET	Returns a JSON structure of the Schema team's Rosetta Crosswalk Data Dictionary
/api/v2/references/def_codes/ (/api/v2/references/def_codes/)	GET	Returns an object of Disaster Emergency Fund (DEF) Codes (DEFC) and titles
/api/v2/references/filter/ (/api/v2/references/filter/)	POST	Accepts an Advanced Search filter object and returns a hash which can be used as a lookup key by /api/v2/references/hash/
/api/v2/references/filter_tree/psc/<GROUP>/<PSC>/<PSC>/ (/api/v2/references/filter_tree/psc/Service/C/C1/)	GET	Returns a list of PSC under the provided path
/api/v2/references/filter_tree/psc/<GROUP>/<PSC>/ (/api/v2/references/filter_tree/psc/Product/10/)	GET	Returns a list of PSC under the provided path
/api/v2/references/filter_tree/psc/<GROUP>/ (/api/v2/references/filter_tree/psc/Product/)	GET	Returns a list of PSC under the provided path
/api/v2/references/filter_tree/psc/ (/api/v2/references/filter_tree/psc/)	GET	Returns a list of PSC groupings

Endpoint	Methods	Description
<code>/api/v2/references/filter_tree/tas/&lt;AGENCY&gt;/&lt;FEDERAL_ACCOUNT&gt;/ (/api/v2/references/filter_tree/tas/020/020-0550/)</code>	GET	Returns a list of Treasury Account Symbols associated with the specified federal account
<code>/api/v2/references/filter_tree/tas/&lt;AGENCY&gt;/ (/api/v2/references/filter_tree/tas/020/)</code>	GET	Returns a list of federal accounts associated with the specified agency
<code>/api/v2/references/filter_tree/tas/ (/api/v2/references/filter_tree/tas/)</code>	GET	Returns a list of toptier agencies that have at least one TAS affiliated with them
<code>/api/v2/references/glossary/ (/api/v2/references/glossary/)</code>	GET	Returns a list of glossary terms and definitions
<code>/api/v2/references/hash/ (/api/v2/references/hash/)</code>	POST	Accepts a hash generated by <code>/api/v2/references/filter/</code> and returns an Advanced Search filter object
<code>/api/v2/references/naics/&lt;NAICS_CODE&gt;/ (/api/v2/references/naics/11/)</code>	GET	Returns the requested NAICS and immediate children, as well as related, relevant data.
<code>/api/v2/references/naics/ (/api/v2/references/naics/)</code>	GET	Returns all Tier 1 (2-digit) NAICS and related, relevant data.
<code>/api/v2/references/submission_periods/ (/api/v2/references/submission_periods/)</code>	GET	Returns a list of all available submission periods with essential information about start and end dates.
<code>/api/v2/references/toptier_agencies/ (/api/v2/references/toptier_agencies/)</code>	GET	Returns all toptier agencies and related, relevant data.
<code>/api/v2/references/total_budgetary_resources/ (/api/v2/references/total_budgetary_resources/)</code>	GET	Returns a list of total budgetary resources totalled by fiscal year and period.

Endpoint	Methods	Description
/api/v2/reporting/agencies/<TOPTIER_CODE>/overview/ (/api/v2/reporting/agencies/020/overview/)	GET	Returns a list of submission data for the provided agency.
/api/v2/reporting/agencies/overview/ (/api/v2/reporting/agencies/overview/)	GET	Returns About the Data information about all agencies with submissions in a provided fiscal year and period
/api/v2/reporting/agencies/publish_dates/ (/api/v2/reporting/agencies/publish_dates/)	GET	Returns submission publication and certification information about all agencies with submissions in a provided fiscal year and period
/api/v2/reporting/agencies/<TOPTIER_CODE>/<FISCAL_YEAR>/<FISCAL_PERIOD>/submission_history/ (/api/v2/reporting/agencies/020/2020/12/submission_history/)	GET	Returns a list of submission publication dates and certified dates for the provided agency for the provided fiscal year and period.
/api/v2/reporting/agencies/<TOPTIER_CODE>/<FISCAL_YEAR>/<FISCAL_PERIOD>/unlinked_awards/<TYPE>/ (/api/v2/reporting/agencies/020/2020/12/unlinked_awards/procurement/)	GET	Returns counts of an agency's linked and unlinked awards for a given period.
/api/v2/search/new_awards_over_time/ (/api/v2/search/new_awards_over_time/)	POST	Returns a list of time periods with the new awards in the appropriate period within the provided time range
/api/v2/search/spending_by_award/ (/api/v2/search/spending_by_award/)	POST	Returns the fields of the filtered awards
/api/v2/search/spending_by_award_count/ (/api/v2/search/spending_by_award_count/)	POST	Returns the number of awards in each award type (Contracts, IDV, Loans, Direct Payments, Grants, and Other)

Endpoint	Methods	Description
/api/v2/search/spending_by_category/ (/api/v2/search/spending_by_category/)	POST	Returns data that is grouped in preset units to support the various data visualizations on USAspending.gov's Advanced Search page
/api/v2/search/spending_by_category/awarding_agency/ (/api/v2/search/spending_by_category/awarding_agency/)	POST	Returns data that is grouped in preset units to support the Spending by Awarding Agency data visualizations on USAspending.gov's Advanced Search page
/api/v2/search/spending_by_category/awarding_subagency/ (/api/v2/search/spending_by_category/awarding_subagency/)	POST	Returns data that is grouped in preset units to support the Spending by Awarding Subagency data visualizations on USAspending.gov's Advanced Search page
/api/v2/search/spending_by_category/cfda/ (/api/v2/search/spending_by_category/cfda/)	POST	Returns data that is grouped in preset units to support the Spending by CFDA data visualizations on USAspending.gov's Advanced Search page
/api/v2/search/spending_by_category/country/ (/api/v2/search/spending_by_category/country/)	POST	Returns data that is grouped in preset units to support the Spending by Country data visualizations on USAspending.gov's Recipient Profile page
/api/v2/search/spending_by_category/county/ (/api/v2/search/spending_by_category/county/)	POST	Returns data that is grouped in preset units to support the Spending by County data visualizations on USAspending.gov's State Profile page
/api/v2/search/spending_by_category/district/ (/api/v2/search/spending_by_category/district/)	POST	Returns data that is grouped in preset units to support the Spending by Congressional District data visualizations on USAspending.gov's State Profile page
/api/v2/search/spending_by_category/federal_account/ (/api/v2/search/spending_by_category/federal_account/)	POST	Returns data that is grouped in preset units to support the Spending by Federal Account data visualizations on USAspending.gov's Recipient Profile page

Endpoint	Methods	Description
<code>/api/v2/search/spending_by_category/funding_agency/ (/api/v2/search/spending_by_category/funding_agency/)</code>	POST	Returns data that is grouped in preset units to support the Spending by Funding Agency data visualizations on USAspending.gov's Advanced Search page
<code>/api/v2/search/spending_by_category/funding_subagency/ (/api/v2/search/spending_by_category/funding_subagency/)</code>	POST	Returns data that is grouped in preset units to support the Spending by Funding Subagency data visualizations on USAspending.gov's Advanced Search page
<code>/api/v2/search/spending_by_category/naics/ (/api/v2/search/spending_by_category/naics/)</code>	POST	Returns data that is grouped in preset units to support the Spending by NAICS data visualizations on USAspending.gov's Advanced Search page
<code>/api/v2/search/spending_by_category/psc/ (/api/v2/search/spending_by_category/psc/)</code>	POST	Returns data that is grouped in preset units to support the Spending by PSC data visualizations on USAspending.gov's Advanced Search page
<code>/api/v2/search/spending_by_category/recipient (/api/v2/search/spending_by_category/recipient)</code>	POST	Returns data that is grouped in preset units to support the Spending by Recipient data visualizations on USAspending.gov's Advanced Search page
<code>/api/v2/search/spending_by_category/recipient_duns/ (/api/v2/search/spending_by_category/recipient_duns/)</code>	POST	Returns data that is grouped in preset units to support the Spending by Recipient DUNS data visualizations on USAspending.gov's Advanced Search page
<code>/api/v2/search/spending_by_category/state_territory/ (/api/v2/search/spending_by_category/state_territory/)</code>	POST	Returns data that is grouped in preset units to support the Spending by State Territory data visualizations on USAspending.gov's Recipient Profile page
<code>/api/v2/search/spending_by_category/defc/ (/api/v2/search/spending_by_category/defc/)</code>	POST	Returns data that is grouped in preset units to support the Spending by DEFC data visualizations on USAspending.gov's Advanced Search page

Endpoint	Methods	Description
/api/v2/search/spending_by_geography/ (/api/v2/search/spending_by_geography/)	POST	Returns Spending by state code, county code, or congressional district code
/api/v2/search/spending_by_subaward_grouped/ (/api/v2/search/spending_by_subaward_grouped/)	POST	Returns the award id, number of Subawards for the award, total amount of Subaward obligations for the award, and the award generated internal id
/api/v2/search/spending_by_transaction/ (/api/v2/search/spending_by_transaction/)	POST	Returns awards where a certain subset of fields match against search term
/api/v2/search/spending_by_transaction_count/ (/api/v2/search/spending_by_transaction_count/)	POST	Returns counts of awards where a certain subset of fields match against search term
/api/v2/search/spending_by_transaction_grouped/ (/api/v2/search/spending_by_transaction_grouped/)	POST	Returns information about transactions where a certain subset of fields match against search terms and results are grouped by their prime award.
/api/v2/search/spending_over_time/ (/api/v2/search/spending_over_time/)	POST	Returns transaction aggregated amounts for Spending Over Time data visualizations on USAspending.gov
/api/v2/search/transaction_spending_summary/ (/api/v2/search/transaction_spending_summary/)	POST	Returns the number of transactions and the sum of federal action obligations for prime awards given a set of award of filters
/api/v2/spending/ (/api/v2/spending/)	POST	Returns spending data information through various types and filters
/api/v2/subawards/ (/api/v2/subawards/)	POST	Returns subawards either related, optionally, to a specific parent award, or for all parent awards if desired
/api/v2/transactions/ (/api/v2/transactions/)	POST	Returns transactions related to a specific parent award
